Practice Activity: Exploring the Chrome Browser

In this activity, you will practice using the **Google Chrome browser**. Follow the steps below on your computer.

Step 1: Open Chrome

1. Find the **Google Chrome icon** on your desktop or taskbar.
2. Double-click the icon to open Chrome.

Step 2: Visit a website

1. Click inside the **address bar** at the top of the browser.
2. Type the website address below:

   www.wikipedia.org
3. Press **Enter**.

Step 3: Explore the webpage

Try the following actions:

- Scroll **up and down** the webpage.
- Click on **one link** on the page.
- Click the **Back button** to return to the previous page.
- Click the **Refresh button** to reload the page.

Step 4: Open a new tab

1. Click the **New Tab (+)** button.
2. In the address bar, type:

   www.nationalgeographic.com
3. Press **Enter**.

Reflection questions

Discuss with a partner or write your answers:

1. What is the **address bar used for**?
2. What is a **tab** in a browser?

💡**Key idea:** A web browser helps you **visit websites, navigate webpages, and explore information on the internet**.
